

Seberville Pte 7 Tenn
May 15 1942

Mr West Crousan I have
been impressed to write you a
History of the Crousan
Family the first settlers in the
area I thinking you would like
to have one I don't think of
the young generations
knows much about them and
when this valley was first settled
I remember so many things
your Grand Father Crousan
told me and I have been trying
to write a History of it and I
thought you would like to have
one. I can remember things
that I heard in my young days
better than what I have been told
me in the last few years. I suppose
all old people can that way.
Just you may have wrote some
out your self if you have
you can put both together
as I realize I am getting old
and can't write much longer
hope you can read this with love and
best wishes to all your Aunt Martha Crousan
